MUHAMMAD AL-KHWAREZMI SCHOOL

Expected Graduation: 2026

JUNIOR FRONT-END DEVELOPER

IT-ACADEMY

2022 - 2023

LANGUAGE

English

Russian

Uzbek

AKBARSHOH ISMATOV

FRONT-END DEVELOPER

I am a frontend web developer with over two years of experience in building responsive and modern websites. Skilled in React.js, Next.js, Tailwind CSS, and JavaScript, with a strong focus on clean UI and performance. I have a solid understanding of backend technologies such as Node.js, Python Flask, and MongoDB, and experience in mobile development using Android Studio and Java. I am also familiar with graphic design tools like Adobe Photoshop. I have built and deployed 10+ frontend projects. Strong in teamwork, time management, communication, and problem-solving.

EXPERIENCE

SELF-EMPLOYED

2023 - Present

Freelancing and Projects:

- EduRate – A platform for rating teachers across learning centers, with a custom dashboard system for user feedback, analytics, and premium features.
- Zakovat – A quiz competition management system featuring team registration, participant tracking, tournament dashboards, and real-time score updates.
- TeenVision – A community-driven platform designed for teenagers to create an opportunity to apply programs internationally.
- Other Projects – Includes e-commerce websites, admin dashboards, portfolio sites, landing pages, and API-integrated web apps.
